I had a very good experience with Gyanshetra in the course of my admission process. Their team proved to be very supportive and helpful at all times. They gave us timely updates on documentation and the different forms for various colleges. This was done well in time there by making us feel familiar with the whole process. The Technical Support Team was ever ready to clear all my queries and I likewise never hesitated to call them 5 times a day! Their help was most valuable during the spot counseling where one could not have afforded to make any mistakes. They guided us and reassured our way through the process. Overall, I am grateful to the team for their help. The whole team was very courteous & always responding positively but still special thanks to the executives as we would call them frequently and they never got disturbed. They were bang on target because when CBSE, JEE and AI ranks were declared they told that I will get IGDTUW and now I am there.
